Pre-Order: 2019 Slipper Symposium

Aloha!

Thank you for your interest in our plants! Below are some of the most exciting remakes and new hybrids available anywhere. If you have a question about a plant on the list, do not hesitate to contact me.

To better serve you and facilitate efficient order processing, all pre-orders must be received by Wednesday- 23 October, 2019 by 15:00 HST. Orders received after this time may not be able to be brought to the show, but could be mailed to you once I return to the nursery.

To assist you in ordering plants- please keep the following in mind:

NBS= Near Blooming Size plants that will be mature and able to flower within the next 6-8 months

BS= Blooming size plants that can flower at anytime within their flowering season.

Please note the following discount schedule:

Discounts do not apply to shipping charges and select divisions. Orders over \$250 receive free shipping/handling for pick-up at the symposium or FedEx Priority Overnight service to your preferred destination.

\$1 - \$500= Net

\$501 - \$999= 5%

\$1,000 - \$1999= 10%

\$2,000+ = 15%

Registered Name	Pod Parent	Seed parent	Plant Size	Price
-----------------	------------	-------------	------------	-------

Species-

Paph.henryanum x sib			BS	\$35.00
----------------------	--	--	----	---------

These are perhaps my favorite of the smaller paph species. Charming plants make good specimen plants and are perfect for folks with limited growing space.

Paph.armeniaccum x sib			BS	\$50.00
------------------------	--	--	----	---------

I think these are definitely one of the easier parvi species to grow and certainly very attractive flowers. I have had success growing these in a hanging basket and they form large plants quickly that way.

Paph.charlesworthii fma.album x sib	Green Elf	White Cloud	NBS	\$70.00
-------------------------------------	-----------	-------------	-----	---------

A sib cross between two excellent examples of the green & white form. These are also easier to grow than earlier sib crosses thanks to excellent genes and progressive line breeding. A must for those who enjoy novelties and compact plants.

Paph.charlesworthii x sib	#5	Lavender Lover	BS	\$45.00
---------------------------	----	----------------	----	---------

An excellent plant for cooler growers- a charming species that never dissappoints!

"rothschildianum- lite" as I call these. Same positive attributes; 1/6 the growing space.

Paph.delenatii x sib	#1	IC	BS	\$35.00
-----------------------------	-----------	-----------	-----------	----------------

My favorite parvi species and probably also my favorite overall.

Paph.superbiens x sib	Arden AM/AOS	Big Brother	BS	\$50.00
------------------------------	---------------------	--------------------	-----------	----------------

A lovely maudiae-type. The foliage is just as attractive as the flowers; if not more so!

Paph.moquetteanum x self	Yang-Yi AM/AOS		BS	\$40.00
---------------------------------	-----------------------	--	-----------	----------------

A sequential bloomer. I seldom see this listed for sale anymore. A real pity- considering what a lovely thing it is!

Paph.callosum	Hilo Fire AM/AOS	PA1485-1	BS	\$45.00
----------------------	-------------------------	-----------------	-----------	----------------

I haven't seen this species for sale ANYWHERE! These promise to be excellent. Good for folks with limited space.

Paph.acmodontum x sib	PA#1		BS	\$40.00
------------------------------	-------------	--	-----------	----------------

On the verge of miniature- but not quite. Small, charming and a worthy addition to any collection.

Paph.primulinum fma.flavum	Green Tea	Jeff	BS	\$50.00
----------------------------	-----------	------	-----------	---------

My favorite of the sequential bloomers; this form especially.

Paph.sanderianum x sib	WY-7' SM/TOGA	Select' BM/TPS	NBS	\$175.00
------------------------	---------------	----------------	------------	----------

I can't not talk these up! This is an impressive remake out of Taiwan with what promises to be excellent potential. I have 5 plants sitting in the stud bench and the first thing I noticed was how much easier these are to grow than other varieties I have. Normally a very fussy grower- these make it easy!

Hybrids-

Multifloral

Paph.Toni Semple	<i>haynaldianum '2011'</i>	<i>lowii half alba '#1'</i>	BS	\$50.00
Paph.Toni Semple fma. album	<i>haynaldianum album</i>	<i>lowii album</i> <i>'Hilo Gold' AM/AOS</i>	BS	\$60.00

Select Plants

<i>Paph.rothschildianum</i> <i>'Fantastic Four' AM/AOS</i>	One old and one new growth	\$2,500.00
---	----------------------------	------------

Paph. Gloria Naugle
'The Color Fantastique' One old growth and one emerging growth. \$500.00

I've seen a few with fuller form and a few with bigger size; but I've never seen another Gloria Naugle with color this good!

Paph. philippinense 'Taylor' Several pieces to choose from- smallest division would be one old and one new growths. Price goes up depending on size of division. \$350.00 +
*To the best of my knowledge, not awarded; but by far the best example of the laevigatum type I have seen.
My mother plant is always too busy on the stud bench to go to judging!*

Paph. Johanna Burkhardt 'Bast' One old and one new growths. \$1,750.00

Named after the Panther goddess from Marvel's "Black Panther". This one is just as nice as JB 'Perfection'- hence I have not taken it to judging- too busy on the stud bench. Finally time to repot and give her a rest...

Paph. stonei- Selected Seedlings Most have one old growths and one new growths- a few larger plants available These are from Mr.Hsiao's breeding and all award quality. \$250.00

Paph. Harold Koopowitz- Selected Seedlings Most have one old growths and one/two new growths. Award quality. \$200.00
